

PUBLICATIONS ON PEACE MUSEUMS

Introduction

Below is a list of mainly books and articles on peace museums. Publications issued by (or about) individual peace museums are largely excluded; such publications should be looked for on the website of museums concerned. Older publications (dating from before World War II) are also excluded.

Virtually all references are in English, with only a few in other languages (French, German, Dutch). For the extensive literature on peace museums in Japanese, readers are advised to consult Japanese sources.

The bibliography consists of five sections: directories of peace museums; general newsletters about peace museums; reports & proceedings of conferences of peace museums; books, chapters, and articles about peace museums; academic theses and dissertations.

The bibliography is not exhaustive and information about omissions (also in languages other than English) will be gratefully received.
